4. HORIZONTAL PLANE

Circuit Diagram

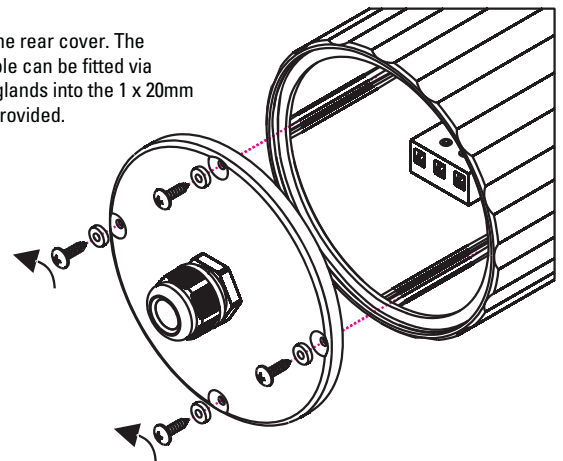

- CELL 10T/EN
- CELL 10T/ENC
- * with capacitor

- 1. Remove the "U" bracket from the speaker. Align the bracket and mark the fixing points. Fix the bracket using suitable fixings (Not supplied).

- 2. Remove the rear cover. The installation cable can be fitted via suitably rated glands into the 1 x 20mm gland entries provided.

10W 5W 2.5W 1.25W

- 3. The cable can then be terminated into the terminal block fitted to the rear of the speaker. The terminals are suitable to take "loop in" "loop out" connections up to 2.5mm per core.

4. Select the desired tapping.

5. Re-fit the rear cover ensuring that the gasket is in place and that the screw fittings are fitted with their rubber washers to ensure the rear cover retains its weatherproof rating.

- 6. Re-fit the speaker to the "U" bracket. Position the speaker to the desired angle then tighten the fixings to secure in place.
